

Fixnetix Expands Trading, Market Data and Risk Control Globally

London, 23rd September 2013

Fixnetix announced today a continued path of growth spanning three continents- North America, Europe and Asia. The London-based company has become an extranet provider for Aquis Exchange, a pan-European venue slated to start trading by years end. Fixnetix is also a Network Service Provider (NSP) and Vendor of Record (VOR) for market data at Direct Edge, a growing equity market who recently announced a merger with BATS. For Fixed Income, Fixnetix offers trading and market data for EURO MTS. On the risk control front, Fixnetix has deployed iX-eCute, the ultra-low latency pre-trade risk FPGA which is executing trades in Canada (TMX) the USA (Nasdaq) and Japan (TSE).

"As one of the last independent neutral providers in the Fintech space, we are able to extend our knowledge and expertise to customers worldwide" says Hugh Hughes, Chief Executive of Fixnetix. "With the deployment of our risk control FPGA in three countries and by continuing to add new markets to our network; Fixnetix has become a very cost efficient outsourced supplier."

About Fixnetix

Founded in London in 2006, Fixnetix is a leading Managed Service Provider for the global financial community. Over the last eight years, Fixnetix has built a reputation as an award winning international technology vendor, supplying outsourced services for ultra-low latency trading, market data, hosting, infrastructure connectivity and risk management to prominent Investment Banks, Hedge Funds, Proprietary Trading Groups, Start Ups and Exchanges worldwide.
